Professional Experience

Bethel Innovations – Bristow, VA   May 2023 – Present
Front End Developer

Develop and update a responsive consulting service website utilizing React, Bootstrap, HTML, CSS, and JavaScript technologies. Engage with clients to grasp project requirements, transforming them into engaging and functional React applications. Demonstrate effective communication and project management skills, ensuring timely project delivery through seamless client coordination.

- Enhanced cross-browser compatibility and performance by implementing responsive designs and image optimization in UX, following best practices.
- Established a comprehensive UI design framework encompassing wireframes, mockups, and clickable prototypes.
- Boosted client engagement and provided a seamless platform for business interaction by creating an efficient consultancy website.
- Delivered a flawless website by conducting comprehensive testing and meticulous debugging.

4 Square IT Consulting Inc. – Springfield, VA   December 2022 – January 2024
Risk Management Intern

Skilled in implementing aspects of Security Authorization and Continuous Monitoring processes using National Institute of Standard Publications (NIST) 800-53A Rev 5, NIST SP 800-53 Rev 5, FIPS 199.

- Demonstrated expertise in Federal Information Processing Standards (FIPS) 199 System Categorization, System Security Plan (SSP), Security Assessment Plan (SAP), Security Assessment Report (SAR), Risk Assessment (Impact Analysis), Continuous Monitoring, and development of Plan of Action & Milestone (POAM).
- Collaborated with a team to implement a comprehensive risk assessment for a simulated business scenario.

EO Design & Development – Bristow, VA   January 2022 – November 2023
WordPress Designer

Planned and established an intuitive online catering platform with PHP, CSS, and MySQL, utilizing Elementor on the WordPress platform for enhanced functionality. Led client and project team meetings, ensuring effective communication and managing client expectations for website requirements. Monitored project progress and budget, providing clear status updates.

- Managed the support and maintenance of systems and applications, conducting security and software updates for systems, applications, and plugins.
- Grew and attracted new customers and enhanced the efficiency of business operations by designing and launching a catering website to serve as the central online platform for client engagement, marketing, and operations.
- Crafted and executed captivating, innovative, and user-centric experiences that align seamlessly with the client's business goals.

EO Design & Development – Richmond, VA   June 2020 – February 2021
Front End Designer

Crafted a strategic staffing website designed to engage and attract new clients while offering an intuitive platform to showcase company services. Accountable for designing, developing, and ongoing enhancement of web pages and sites, ensuring optimal performance. Coordinated with technical/non-technical stakeholders to gather and articulate business requirements effectively.

- Boosted visitor satisfaction by 60% and aided clients in understanding site features and effective website management by developing and maintaining a user guide.
- Maximized online presence/organic traffic, improved visibility, and elevated client website ranking by conducting comprehensive search engine optimization (SEO) activities.

Veriheal – Alexandria, VA   July 2018 – August 2019
IT Specialist

Assisted the senior developer in generating crucial backend and operational systems documentation for the company. Led the development of a standard operating procedures (SOP) manual for backend developers within the company. Conducted PHP data remediation on the MySQL database, enhancing the backend infrastructure for optimal performance.

- Optimized existing websites' functionality and enriched user experience by supporting senior developers in implementing new front-end features.
- Improved the user experience by conducting thorough client-side performance testing before each website launch.
